Unterpremstätten, August 2010

EoL notification of PDIP24 and PDIP20 packages

Dear Customer,

austriamicrosystems AG has been informed that our assembly subcontractor will stop the production of following packages:

- PDIP24 (300mil)
- PDIP20 (300mil)

Products affected:

AS1100PL

AS1100PE

AS1106PL

AS1106PE

AS1107PL

AS1108PL

Reason for that is that the total demand for such products has declined to such a level that an economic production can no longer be warranted. We therefore ask for your kind cooperation in the phasing out of the package.

The phase out may pose one or the other logistic challenge, we hope, however, that the below information will help to execute the process as smoothly as possible:

1.) Last Order Placement

For the parts listed below we are pleased to accept orders until July 31, 2011.

2.) Last Deliveries

Last deliveries based upon order placed in accordance with item 1.) above will have to be executed before August 30, 2011.

Please note that austriamicrosystems AG can provide you following alternative packages:

<u>Ordering Code</u>			<u>Ordering Code</u>	
AS1100PL	PDIP24 (300mil)	==>	AS1100WL	SOIC24 (300mil)
AS1100PE	PDIP24 (300mil)	==>	AS1100WE	SOIC24 (300mil)
AS1106PL	PDIP24 (300mil)	==>	AS1106WL	SOIC24 (300mil)
AS1106PE	PDIP24 (300mil)	==>	AS1106WE	SOIC24 (300mil)
AS1107PL	PDIP24 (300mil)	==>	AS1107WL	SOIC24 (300mil)
AS1108PL	PDIP20 (300mil)	==>	AS1108WL	SOIC20 (300mil)

For package details please refer to the datasheet on our homepage
