

INELTEK PCN

Von: INELTEK PCN
Betreff: Unexpected sudden EOL of LMR2016 rechargeable battery

Dear business friends,

thank you very much for your kind cooperation.
This is to inform you about a sudden and unexpected EOL for LMR2016.

The manufacturer of this part suddenly discontinued the LMR2016 with last time buy in February 2020 and last production in May 2020.
Last shipment can be later. The notice is very short as they forgot to inform us in summer '19.

LMR2016 is not among Renata's standard product and we are selling it in small volume to a few accounts only.
That's why we hope, that this unprofessional approach by our supplier does not have serious consequences.
Please note that this is NOT a typical behaviour of Renata to handle EOL or PCN cases.

We hope for your kind understanding and please feel free to contact us in case of any questions.

Best regards and have a great day
