Description of Change: Qorvo must update our Wafer Level Chip Scale Packages (WLCSP) country of origin (COO) to be consistent with Governmental regulations. The WLCSP COO shall now be based on the wafer foundry manufacture location versus bump location. COO on our product labels will be changed to the extent that the current COO information was inconsistent with this in our system. The changes are being made to ensure compliance with all applicable customs and import laws and regulations. There is no change to actual manufacturing locations for the products you are receiving. Expect to see a both old and new COO on our packaging labels as this change is promulgated through our supply chain.
