

Product Discontinuation Notice – CR2450N-MFR (Part No. 101002)

Itingen, August 2026

Dear valued customer,

We would like to thank you for your excellent cooperation and support of our business.

We regret to inform you that, effective immediately, we are discontinuing the sale of the CR2450N-MFR (Part No. 101002) and all related tabbed batteries of this product.

As a possible alternative, we can offer our Swiss-made CR2450N (Part No. 700377). The batteries are very similar and differ by approximately 7% in nominal capacity. Both datasheets are attached to this document.

For further information regarding this discontinuation and the alternative battery made in Switzerland, please contact us. We will be happy to advise you.

At the same time, we would like to inform you that a new version of the CR2450 MFR is currently under development and will be introduced shortly.

Please accept our apologies for the short notice and the fact that the battery is no longer available. We will endeavour to fulfil all orders already placed as confirmed, and our sales team will contact you regarding this.

Best Regards,

Jürgen Ruther

Head of OEM Sales | Business Development
