Reason for Change:

☐ Material / Composition

☐ Design / Firmware

☒ Manufacturing Location

☐ Processing / Manufacturing

☐ Logistics

☐ Quality / Reliability

Change Description:

For all products that have only "Atmel Automotive, Heilbronn (Germany)" listed as wafer probe location, a second Atmel owned wafer probe location will be added (ACP, Atmel Corporation Philippines Test Inc.; including Temic Semiconductor Test Inc.).

ACP will probe the wafers with the same test platforms and test program revisions as the Atmel Automotive, Heilbronn site.

There is no impact on form, fit, function or reliability.

ACP has already been performing final testing of RFA products and wafer probing of Atmel automotive, industrial NVM and microcontroller products since more than 5 years with an over all wafer probe capacity of 20.000 wafers per week."

This PCN is intended for customer information only - no feedback/acceptance is required.

Proposed First Ship Date*: March 1, 2012

**The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.*
