Change Description: Thailand was hit by a devastating flood that impacted the production of ATMEL's assembly subcontractor Chinteik Electronic Industries Co., Ltd. (CEI). Due to the continued serious flooding the production at the CEI facility is disrupted for an indefinite period of time. This uncertainty has led Atmel to stop manufacturing in the current assembly location and to transfer the assembly activities of the PLL UHF ASK/FSK transmitter T5754-6AQJ to ASE Shanghai, China. ATMEL has long business experience with ASE. The available package qualification data is currently under review to support the necessary short term transfer. Until mid January 2012 ATMEL is able to fulfil existing orders for the T5754-6AQJ out of the inventory. The operation taskforce, which was put immediately, is expediting activities so as to qualify T5754-6AQJ at the new assembly supplier as fast as possible.
