

PCN / EOL Notification

Product Change Notification Number: HC123501

Notification Date*: September 3, 2012

Title: Wafer Fab Transfer to Atmel Colorado Springs for U4091BM*, T4091R* and EOL of the Telefunken Semiconductor GmbH (TSG) Product Version.																		
Product Identification: U4091BM-RFNG3Y 19 U4091BM-RFNY 19 U4091BM-RFNY T4091R-DDB 17																		
Reason for Change:	☐ Material / Composition ☐ Processing / Manufacturing	☐ Design / Firmware ☐ Logistics	☒ Manufacturing Location ☐ Quality / Reliability															
Change Description: Atmel will shortly release it's own wafer fab in Colorado Springs for the products U4091BM* and T4091R*. In support of Telefunken Semiconductor GmbH (TSG) wafer start requests that significantly exceed current run rates, Atmel is consolidating residual wafer demand for the TSG version of the above product. In order to ensure that Atmel does not purchase wafers from TSG in excess of certain customer demands Atmel is issuing this PCN/EOL notice for the product version that uses the TSG front end. As Atmel wafer start rates at TSG currently exceed demand, Atmel has shortened the last time by period to quickly assess and build the correct mix of products and thus mitigate risk and ensure a smooth transition to the replacement part built with wafers from the Atmel owned Colorado Springs fab. Atmel kindly requests that last time buy orders for the TSG product version be placed by the LTB date indicated below.

**All orders placed after the notification date are non-cancellable and non-returnable (NCNR).*

***The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN/EOL issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after proposed first ship date and after maximum last ship date.*
