

PCN / EOL Notification

PCN Number: HC130801

Notification Date*: February 21, 2013

Title: Wafer Fab Transfer to Atmel Colorado Springs for ATA6286N*. EOL of the Telefunken Semiconductor GmbH (TSG) Product Version Which Will Be Replaced By the Colorado Springs Product Version

Product Identification:

ATA6286N-PNPW
ATA6286N-PNQW
ATA6286N-PNPW 19
ATA6286N-PNQW 19

Reason for Change:

- ☐ Material / Composition
☐ Processing / Manufacturing

- ☐ Design / Firmware
☐ Logistics

- ☒ Manufacturing Location
☐ Quality / Reliability

Change Description:

Atmel will release it's own wafer fab in Colorado Springs for above product. The expected PPAP availability date for the Colorado version is indicated in this PCN/EOL below.

New part numbers: ATA6286C-PNPW and ATA6286C-PNQW (Colorado fab)

In support of Telefunken Semiconductor GmbH (TSG) wafer start requests that significantly exceed current run rates, Atmel is consolidating residual wafer demand for the TSG version of the above product.

In order to ensure that Atmel does not purchase wafers from TSG in excess of certain Customer demands Atmel is issuing this PCN/EOL notice for the product version that uses the TSG UHF transmitter chip ATA5757 as a component of a dual die part. The microcontroller die is already produced in Colorado Springs and will not be changed.

As Atmel wafer start rates at TSG currently exceed demand, Atmel has shortened the last time by period to quickly assess and build the correct mix of products and thus mitigate risk and ensure a smooth transition to the replacement part built with wafers from the Atmel owned Colorado Springs fab.

Atmel kindly requests that last time buy orders for the TSG version of the product be placed by Last Time Buy Date as below.
