

Product End-of-Life Notification

EOL Number: HE083001A (REVISED 12/16/08)

Date*: July 25, 2008

See Addition/Change in Bold Blue Font Below

Product Description & Replacement:

Infrared receiver for Car Application

Current Part Number	Replacement Part Number	Comment
ATA2516N2518-6AQY	None	IR receiver

Reason for EOL:

The ATA2516N2518-6AQY is the final product manufactured in low volume using a process technology at a third party foundry. This process technology is not available elsewhere therefore, Atmel cannot guarantee the long-term delivery and quality of this part. **MHS Electronics, the wafer foundry for the ATA2516N2518-6AQY, applied for preliminary insolvency proceedings at the French commercial courts due to the deteriorating economic environment. According to French press, the courts have accepted MHS request on December 11, 2008. Unfortunately there is no alternative source for the wafer technology available; therefore we urge all customers to place their last time buy order as soon as possible. Atmel expects that all last time buy orders received until January 31, 2009 can be fulfilled. We are aware that this short notice may cause inconvenience but it is our duty to inform you about this latest development to prevent bigger problems.**

Last Time Buy Date: January 31, 2009

** All orders placed after the notification date are **non-cancellable** and **non-returnable (NCNR)**.*

Last Ship Date: January 31, 2010
