Reason for EOL:

In support of Telefunken Semiconductor GmbH (TSG) wafer start requests that significantly exceed current run rates, Atmel is pulling forward future wafer demand on those existing Atmel products which are exclusively manufactured by TSG. In order to ensure that Atmel does not purchase wafers in excess of certain Customer demands Atmel is issuing EOL notices to align life time demand.

As the wafer start rates currently exceed demand, Atmel has shortened the last time by period to enable us to quickly assess and build the correct mix of products and thus mitigate risk.

The above products contain 2 dies which are manufactured on two different process technologies. One of the technologies is available in Atmel's Colorado Springs wafer fab, while the other process technology is not available outside of TSG.

Atmel kindly requests that last time buy orders be placed by 31st of December 2012 as well as accept the wafer fab change.
