

Product Identification:

MAS6240E series

Description of Change:

New worst case MSL level definition in data sheet because of additional supplier for the QFN package. Actual MSL label on moisture barrier bag.

Reason for Change:

To improve the availability of the product by having new second source for the package

Implement Date:

February 1, 2026. DC 04/26 and newer.

Anticipated impact on form, fit, function or reliability:

Requires different handling if parts are not used soon after the reel is opened
