Description of Change: Change to lok reel design (refer to attachment in comments section) for products from Qorvo Costa Rica.			
Reason for Change: Change need was triggered to prevent carrier tape misalignment during handling. Current lok reel has large open windows which allow customer SMT operators to touch the carrier tape. Proposed lok reel has smaller windows which minimize carrier tape exposure. This will also standardize lok reel with other Qorvo sites.			
Detail of potential impact to customer: No potential impact is expected. This lok reel is currently used by other Qorvo facilities.
