Change Affects	☐ Form ☐ Fit ☐ Function ☐ Reliability ☐ N/A ☐ Other:		

Description of Change: End of Life for EVK1000

Reason for Change: Components in the BOM for the EVK1000 have gone EOL, therefore a redesign would be required. We feel development needs are well met by the new DW3000 based kits now available to our customers, therefore a redesign of the EVK1000 is not warranted.

Detail of potential impact to customer: Customers will need to place their last time buy orders by the date specified.

Affected Products: EVK1000

Customer Acknowledgement/Responses: All Customer responses must be sent via e-mail to PCNResponse@qorvo.com. When replying, please include the PCN number in subject line. Customers should acknowledge receipt of the PCN within 30 days of delivery of the PCN. Lack of acknowledgement of the PCN within 30 days constitutes acceptance of the change. Any concerns, sample order response, or a request for further information must be provided within the acknowledgement period. If additional time is required to determine if samples or additional data is required, the customer must submit this request along with the acknowledgement response and state when they expect to complete their review. After acknowledgement, lack of additional response prior to the planned first ship date constitutes acceptance of the change. If the customer requires additional time to perform sample testing, beyond the stated planned first ship date, an extension must be negotiated with Qorvo. Acceptance of the PCN prior to the planned first ship date is considered approval to begin shipments early. Any contractual PCN agreements made with Qorvo supersede these requirements.
