Reason for Change:	☒ Material / Composition ☐ Processing / Manufacturing ☐ Design / Firmware	☐ Manufacturing Location ☐ Quality / Reliability ☐ Logistics	
Change Description: To increase manufacturing flexibility and ensure long-term continuity of supply, Atmel will manufacture devices listed above using both gold (Au) and copper bond (Cu) wires. Atmel reserves the right to ship devices with either gold or copper bond wires. The change does not impact reliability, soldering profiles or electrical characteristics. Qualification data is available upon request. Copper samples can be built on request. Lead time of 4 to 8 weeks.			
Identification Method to Distinguish Change: Lot tracking information can be made available upon request.

Quantifiable Impact on Quality & Reliability: None			
Proposed First Ship Date*: October 19, 2013 *The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.			

Atmel Contact: Please contact your Atmel Sales Representative or Distributor for additional information (when replying via e-mail please include the PCN number in subject line).
